**Von Maurits C. Escher : M.C. Escher 2009** before purchasing it in order to gage whether or not it would be worth my time, and all praised M.C. Escher 2009:

Kurzbeschreibung- Neues, geres Poster-Format 50 x 66 cm- Perfekte Konstruktionen jenseits der Realitt- Der Meister der optischen Tuschung- Gold in der Kategorie Kunst/Kultur/Historie bei der Internationalen Kalenderschau StuttgartSynopsis Imaginary worlds, impossible stairways, paradoxical haliways, enigmatic patterns, and mind-boggling graphics are the trademarks of M.C. Escher's artwork. His two-dimensional drawings bring to life a fourth dimension where the surfaces of things come together like a Mobius strip. The profoundly original work of Escher has

inspired countless artists, designers, and filmmakers and can be considered a genre in itself. This guide provides a mind-bending introduction to the great master's work.
